

# Goals to Prioritize and Options to Consider to Create a More Direct Pathway to Health Coverage

Given the eligibility and enrollment process for Colorado’s health insurance affordability programs and feedback received during focus groups, CKF recommends the following nine goals for the state to prioritize, and offers various options to realize these goals for decision makers to consider. The following chart indicates the types of changes that will likely be necessary to implement each option. These include legislative changes to statute and/or the need for legislative budget authority, state regulatory changes, administrative changes, including systems updates, and any necessary federal approval through a State Plan Amendment (SPA) or other waiver authority.

To access the full report, please visit <http://ckf.cchn.org/publications/the-maze/>. For more information on the goals and options that accompany each goal, please refer to the page number indicated.

GOALS AND OPTIONS	LEGISLATIVE		REGULATORY	ADMINISTRATIVE/ SYSTEMS	SPA/ WAIVER
	STATUTORY	BUDGET
