Community Conversations

Meet with engaged stakeholders in your community to discuss community health needs at the local and regional level. These conversations will focus on the barriers and challenges to health outside of health coverage. Barriers could include housing affordability, transportation challenges, access to good food, or other community specific barriers. We're counting on you to identify what these issues are and what they look like in your community, and hopefully start working toward solutions to help address them.

#COVERCO

Please join the conversation and share your learnings with our community online using our hashtag #CoverCo.

THANK YOU
